

# Here is our reality: **Childhood hunger is an epidemic.**

There are approximately **17 million children** in North America that don't know where their next meal is coming from. **17 million children** right here at home, right in our own backyards.  
**At ACN, that's just not acceptable.**

Food Banks  
Canada

Through ACN's Project Feeding Kids program,  
**we're doing our part to help end  
childhood hunger for good!**

## *Making a Big Difference in a Small Way*

1. When someone becomes an ACN customer, a child gets fed.
2. When someone pays their select\* ACN bills each month, another child gets fed.

### **It's that simple.**

And these are services consumers are already using and spending money on month after month, services most people can't live without.

THE RESULTS ARE  
ALREADY SPEAKING  
FOR THEMSELVES

ACN has already provided over 1 million meals to hungry children in need right here at home, and we're committed to providing 1.5 million more meals in 2016.

## AT ACN, **GIVING BACK** IS IN OUR DNA

Since ACN began in 1993, it's been our hope to leave the communities in which we live, work and play a little better than when we found them. ACN supports a long and ever-growing list of organizations on a global scale, with our efforts concentrated on those directly impacting children. Because we believe that when you impact the life of a child, you do more than just change their day; you change their life. Providing hope to the next generation - that's the legacy we hope to leave.

Founded in 1993, ACN is the world's largest direct seller of telecommunications, energy, and other essential services for residential and business customers. ACN provides the services people need and use every day including Digital Phone Service, Wireless, Energy, Television, Home Security & Automation, High Speed Internet and Technical Support. ACN operates in 25 countries with offices located throughout North America, Latin America, Europe, Asia and the Pacific.

\*Select services include ACN Digital Phone Service, High Speed Internet (Canada only) and Flash Wireless (U.S. only)
